

I solve complex problems through **design & systems** thinking

Turning messy workflows into calm, shipped products like websites, dashboards and web apps that simplify real work and stay close until they launch.

Hi, I'm Rajat Mishra

ABOUT

Pragmatic product designer with **10+ years** turning messy enterprise workflows into shipped SaaS, web, and mobile products from first wireframe to production. Built and scaled a product from a 2-person idea to a 12-person team, **taking it all the way to FITT IIT Delhi incubation.**

EXPERIENCE

Terranxt

2022 – Present

Product Designer · UI/UX Lead · Enterprise SaaS · Solar Tech

Joined as employee #2, zero product. Designed web, SaaS & mobile end-to-end. Built design system from scratch which is powering 4 portals. Owned dev handoff, QA & product demos.

[Manual 2/3 months → Automated 2/3 weeks](#) | [Team scaled 2 → 12](#) | [Product incubated at FITT IIT](#)

IIDE

2021

Executive Web Designer · EdTech · CRO

Redesigned core marketing site and course pages with growth for India's largest digital education brand. Introduced company's first Design QA workflow.

[+16% lead conversions](#) | [IA & A/B CTAs shipped](#) | [Mentored 3 designers](#)

Skymap Global

2020

Software Engineer (UI) · GIS · Gov Enterprise

Built satellite imagery marketplace & land monitoring dashboards for Survey of India. Translated dense GIS workflows into clean usable product built alongside SOI / QGIS / ERDAS engineers.

[Procurement 2/3 weeks → 1/2 days](#) | [Gov & Enterprise B2B](#) | [E-comm satellite imagery](#)

Dreamz Merchandising Solutions

2016 – 2019

Jr. Web Designer & Developer · Agency · Multi-industry

Developed a strong foundation in responsive design, frontend implementation and client communication while delivering projects independently from discovery to launch. Where I learned "pixel-perfect" is a design choice, not a personality.

[20+ websites shipped](#) | [10+ industries](#) | [Managed ₹10L+ worth of projects](#)

CASE STUDY

pvNXT Solar Suite

rmcool26.netlify.app/work ↗

From manual chaos to one connected product

A single solar project used to take **2/3 months**, stuck across calls, spreadsheets and WhatsApp, with consumers chasing updates and managers flying blind. I designed one connected suite to fix that.

BEFORE 5+ disconnected tools (SAM, PVsyst, Excel, WhatsApp, AutoCAD), months-long delivery, zero daily visibility

AFTER One pvNXT system: Field (Sales), Atlas (GIS), Connect (Consumer), Studio(EPC), Go(Installer), SCADA(O&M Team), & Artha(Investor). Delivery down to weeks, single source of truth

4+ EPCs onboarded

50+ screens shipped

2/3 wks delivery time

2→12 team scaled

Spade — GIS Imagery Marketplace ↗

India-best satellite imagery buying platform. Archive vs fresh-imagery flows, self-serve checkout.

Procurement: 2/3weeks → 1/2days

IIDE — Lead Page Redesign ↗

Lead-page system on live WordPress. Reusable blocks, CRM automation, A/B tested CTAs.

+16% lead conversions

SKILLS

Design Design Systems · UX Research · User Flows · Information Architecture · Prototyping · Accessibility (WCAG 2.1 AA) · Dev Handoff & QA · Design Ops · Stakeholder Management

Code HTML · CSS · Tailwind · QGIS · ERDAS | frontend ready UX, I speak dev

Tools Figma · FigJam · Framer · Webflow · Miro · Notion · Jira · GA4 / Mixpanel

AI ChatGPT · Claude · Perplexity · Uizard · Galileo · Maze · Dovetail · Firefly

Industries Enterprise SaaS · Solar/CleanTech · GIS & Gov · EdTech · FinTech · Hospitality · Real Estate · F&B · Media and GIS

EDUCATION

Tutedude

Advanced UI UX Designing, Advanced UX research

Ongoing

KVCH (IBM)

Industrial Training

Jan 2019 – Jun 2019

Mangalayatan University

Bachelor of Computer Applications (BCA)

2016 – 2019

Tata Consultancy Services

Diploma in IT, Designing, Web Programming, Application & Advanced Programming

2014 – 2016

Currently leading design at Terranxt, **open to work** any industry, any mess.
