

Hi, I'm Rajat

I solve complex problems through **design & systems** thinking.

UI/UX Lead with 9+ years turning manual chaos into automated clarity. Currently leading design at Terranxt — joined as #2, scaled the team to 12.

ABOUT

I'm a UI/UX Lead with 9+ years across SaaS, mobile apps, GIS, EdTech, and enterprise tools. Most of my work lives where things are messy by default. Starting my career in frontend means I write enough HTML/CSS to keep designs practical, and enough QA tickets to keep my devs happy.

At Terranxt, I joined when there was no product — just ideas and manual processes, helped turn that into the pvNXT Solar Suite that real EPC team uses every day and built the Terranxt team from solo to 12.

WORK EX.

Terranxt PVT LTD

2022 — Present

UI/UX Design Lead

Joined as #2; scaled the team to 12 across web, mobile and design ops. Owned the pvNXT Solar Suite end-to-end — unified three fragmented portals into one platform.

IIDE

2021 — 2022

Executive Web Designer

Redesigned core marketing site and course pages with growth — site looked good but didn't convert. Rewrote IA, A/B tested CTAs, partnered on every section.

EdTech

CRO

+40% engagement

Mentored 3 designers

Design QA rituals

Skymap Global

2019 — 2021

Software Engineer (UI-Oriented)

Designed satellite imagery + raster data tools used by government and enterprise teams. Translated dense GIS workflows into clean dashboards built alongside QGIS / ERDAS engineers.

CASE STUDY

pvNXT Solar Suite — Manual process to connected execution

FEATURED

Enterprise SaaS Design System Web + Mobile Lead Designer

PROBLEM

Solar consumers, EPC partners, and installers were juggling three disconnected portals plus spreadsheets and WhatsApp — handoffs broke daily and no one trusted the data.

ROLE

Led end-to-end design — research with engineers and field teams, IA and flows, design system from scratch, hi-fi UI, motion specs, dev handoff and post-launch QA.

OUTCOME

One unified Solar Suite across web and mobile. Tasks complete ~30% faster. Design system now powers 3+ live products and a team that grew from 2 to 12.
